🌐 [LinkedInProfile](#) 📄 [About me](#) 🌐 [Blog](#) 🐙 [GitHub](#)

SUMMARY

Highly skilled Software Professional with 3.1 years of experience in IT Industry, expertise in designed and implemented web frameworks using MEAN and MERN stacks. I also have experience with design automation frameworks for internal product testing tools(RPA), used in Selenium, Python and Java for different of app types Web, Mobile and Desktop. I have experience with my current role, gaining good teamwork and leadership skills.

WORK EXPERIENCE

SLK Software Services Pvt. Ltd.

| Product Team Dimension Labs.

| 2016 –PRESENT

PROFESSIONAL EXPERIENCE

Projects | SLK Internal Product Tools

01 | Security Tool.

👤 Full Stack developer 📅 October 2018 - Till Date 📍 Bangalore

About Project :

Automatic code review tool to detect bugs, vulnerabilities and code smells in code. It can integrate with your existing workflow to enable continuous code inspection across your project branches and pull requests and once it detect vulnerabilities, it'll generated in details reports(HTML, PDF) along with high, medium, low vulnerabilities graphs with respective projects. This security tool supported "Git-Hooks".

02 | RPA (Robotic Process Automation Tool – RAID).

👤 Senior Product Automation Engineer 📅 November 2016 - October 2018 📍 Bangalore

About Project:

RAID (Robotic Automation & Intelligence Discovery), SLK's Robotic Process Automation platform, is built using blue ocean strategy and design thinking principles to automate any number of processes, regardless of complexity.

03 | Nineteen68 – Test Automation Tool.

👤 Senior Product Automation Engineer 📅 November 2016 - October 2018 📍 Bangalore

About Project :

Software Testing Paradigm - Traditional testing platforms are limited by isolated regression subsets, offer partial automation, and rely on disjointed testing methodology. SLK's proprietary autonomous assurance platform Nineteen68 resolves these issues by enabling near 100% test automation and total coverage of heterogeneous technology and functionality. Nineteen68 eliminates the hidden complexities of excel sheets and helps users to easily understand Test Scenarios through functional decomposition. It intuitively builds scenarios and reuses existing components from other scenarios to accelerate test cycle execution time. [ProjectLink](#)
